SUMMARY

I am a motivated and detail-oriented Computer Science undergraduate with a strong foundation in software development, problem-solving, and teamwork. I am passionate about building scalable web applications that address real-world challenges through technology. With a fast-learning ability and adaptability, I am eager to contribute effectively to dynamic development teams.

PROJECTS

Corporate Gym Website

🔗 https://leofit.vercel.app/

Developed a B2B corporate fitness website as a freelancer using React and Tailwind CSS, with Firebase handling customer data storage and backend services

- Built using React and Tailwind CSS for a fully responsive and modern frontend, with Firebase handling backend operations and secure data storage.
- Designed a clean, intuitive UI for seamless data submission by corporate clients.
- Integrated **user authentication** and developed an **admin panel** exclusively accessible by the client for secure program management and insights.
- The platform ensures a smooth and secure experience tailored for B2B fitness program engagement.

Personal Portfolio Website

🔗 https://nikhilmendiratta.vercel.app/

Personal Portfolio Website

- Crafted a dynamic and modern personal portfolio website using React and JavaScript, highlighting my technical expertise and creative flair.
- Showcases key strengths like skills, projects, education, and contact in an intuitive and interactive layout.
- Aims to leave a lasting impression on recruiters and visitors by blending aesthetics with functionality.

Dietician website

🔗 www.thediet4u.com

Dietician website

- Developed a professional dietician website tailored to provide personalized diet plans based on specific health concerns.
- Integrated **Razorpay** for secure and seamless online payments, enabling users to subscribe to various diet plans.
- Built a dedicated admin panel for the client to manage plans, users, and payments efficiently.

Expense Tracker

Expense Tracker

- Created a smart and responsive Expense Tracker app to help users monitor and manage their daily spending.
- Built using React and Tailwind CSS, with intuitive charts and filters for a clear financial overview.
- Integrated features like category-wise breakdowns, add/edit/delete entries, and real-time updates.

SKILLS

C/C++   MySQL   Tableau   DSA

Python   GIT   GITHUB

MongoDB   React   NODE

Express   HTML   JavaScript

Firebase   OOPS   Python Libraries

CSS   Bootstrap   Tailwind

DBMS   REST APIs   Postman

EDUCATION

Bachelor of Technology in Computer Science

Bhagwan Parshuram Institute of Technology(GGSIPU)

📅 11/2022 - 06/2026   📍 New Delhi, India

12th CBSE:92.6%

Rawal International School

📅 2022   📍 Faridabad

10th CBSE:84.8%

Rawal International School

📅 2020   📍 Faridabad

STRENGTHS

🏆 **Software Development**

Strong skills in software development

⭐ **Problem Solving**

Excellent problem-solving abilities

🧠 **Adaptability**

Adaptable and a fast learner

💡 **Communication**

Effective communication skills

🪄 **Self-Management**

Strong self-management capabilities
